

Finally...the complete story is revealed of how the *USS Hugh W. Hadley* (DD-774) downed 23 kamikazes, endured 5 hits, suffered 151 casualties, and survived a typhoon while being towed 6,100 miles back home!

KAMIKAZE DESTROYER

By Jeffrey R. Veesenmeyer

On 11 May 1945 the *USS Hadley* made naval history. This book describes the *Hadley's* participation in an epic air/sea battle at Okinawa. You'll learn new details of the battle and 385 day journey as told by *USS Hadley* shipmates. Find out how declassified naval documents have now corrected previous battle action reports. Read the personal accounts of shipmates - taken from their interviews and diaries - that will bring a tear, a smile, and a feeling of pride for the *Hadley* crew.

Author, Jeffrey R. Veesenmeyer began researching this book to learn more about his uncle, who was killed on the *Hadley*. He discovered a story about a ship and crew that needed to be told. More importantly, it was a story that surviving *Hadley* shipmates and their families wanted told. Now, this incredible story is available in a 320 page book, with 112 photos, 6 maps, the crew roster and much more. "Kamikaze Destroyer" is a must read for anyone with a connection to the *Hadley* or an interest in WWII military history.
